Laminate.

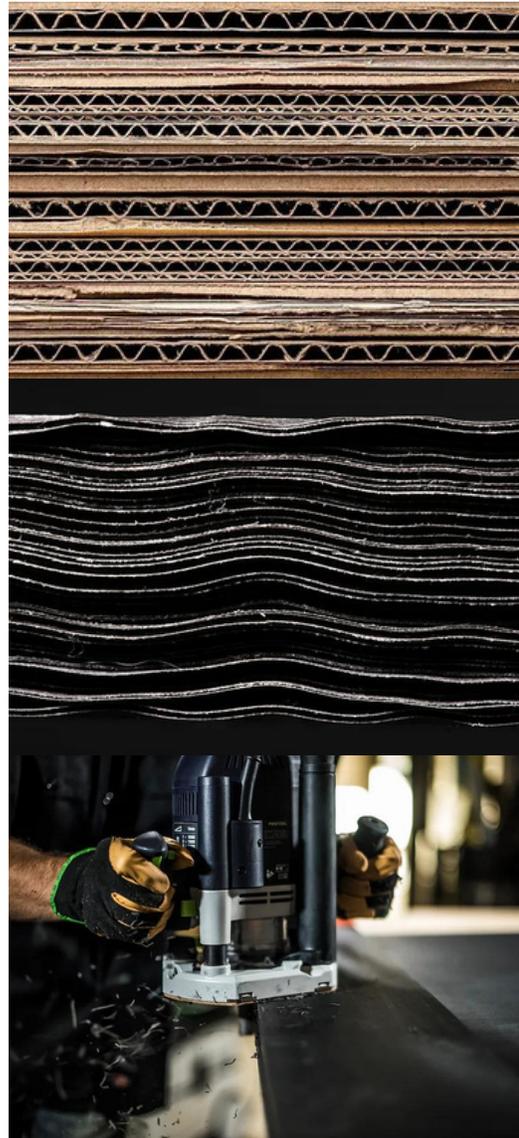

Introducing EarthPly, a revolutionary sustainable work surface that combines the best of eco-conscious materials and functional design.

We give a sheet.

Attainable Sustainable

The EarthPly Collection, comprising of a variety of table top sizes and legs, offers options to adapt to conference and meeting rooms' needs. The core value of this collection resides in its sustainability story of its materiality. The FSC plywood sandwiched between two recycled paper composite layers makes for a top that is not only good looking in most any aesthetic, but is also an authentic sustainable choice of renewable ingredients. As with all products in Mantra Inspired Furniture, this collection is built with longevity in mind.

Rise up.

Adjustable Tables

ELECTRIC 3-STAGE BASE

Promote healthy workspaces by getting workers moving with height adjustable tables. Intuitively designed, our height adjustable tables get you from sitting to standing with a natural lift of the controller paddle.

SMART CONTROLS

LED display controls with Bluetooth® wireless technology as well as memory and reminder functions. Control the height adjustability of your table straight from your smartphone.
